EAN Workshop N°20, 2-4 October, Vienna, Austria

- 40 participants, 10 countries, 4 sessions, 3 working groups, ~ 20 recommendations, 1 tech. visit
- LinkedIn post ✓
- Article in the EAN newsletter ✓
- Article in the SPR newsletter
- Article in JoRP ☐

WORKSHOPS N°20, 21 AND BEYOND ...

EAN Workshop N°20, 2-4 October, Vienna, Austria - Feedback (AGES survey)

- Content: 100 % $\geq$ good (incl. 75% very good); Organisation: 100 % $\geq$ good (incl. 75% very good); Speakers : 100 % $\geq$ good (incl. 50% very good)
- Most important aspects: technical (ALARA development, dosimetry/procedure), informational (feedback from others) relational (lively discussion in the group, interaction between participants)
- Regrets: starting Monday, missing the hospital-working-staff (multidisciplinary workshop) and invoice
- Prospect for other topics: radiation safety culture depending on the existing company culture and context; new alpha emitters $\rightarrow$ guidelines for implementation in therapy, management & leadership of RPE, staff skin dosimetry and case studies when ALARA has been problematic.

WORKSHOPS N°20, 21 AND BEYOND ...

EAN mini-Workshop n°21 (1 session) inserted in ENA conference, 15-17 May, Rome, Italy

- Topics of the session: 'the optimization application in NORM field', <https://www.airp-asso.it/?p=5559>
- Creation of an EAN working group on NORM: Cristina Nuccetelli, Fernand Vermeersch, Selma Fijuljanin and Barry O'Connor and Sylvain Andresz
- Presentations: Operational experience (from Italy?), reflections from EAN on the graded approach and holistic approach (Fernand?), ...
- Deadline for abstract: 31/01/2024. Need to set up 1 meeting before !

WORKSHOPS N°20, 21 AND BEYOND ...

EAN Workshop N°22, 2025

- ALARA for small modular reactor (SMR) ? Trendy topic, but no SMR in operation (design only). Would the vendors and the operators be interested? Need an angle.
- ALARA in transport ? Never investigated by EAN. Variety of exposure situations and requirements. (Could include transport of SMR component)
- ALARA in inspection? Rich topic but with a narrower audience. Is EAN the most legitimate?
- Place, date, organizer, ...

EAN NEWSLETTER 50

- Contribution: DSA (Norway), ISS (Italy), Asian & Pacific ALARA Network (ARAN), EUTERP, SHAMINSEN-SINGS

Dear Readers,

This is Newsletter n° 50. Such a long journey since n°1 (July 1996)!

Scroll down to see the news on ALARA and radiation protection for radon, NORM, interventional radiology and nuclear medicine and know more about the EUTERP workshop and our counterpart in Asia-Pacific.

The Editorial Board —

Kinsarvik, a high radon area

Current perspective and situation, 10 years after an article on the same topic in the EAN newsletter 32.

Radiological protection for NORM industry

A methodology from Italy using a graded approach, in application of Euratom Directive 2013/59

A synthesis of EAN Workshop n°20

On the application of ALARA for interventional radiology and nuclear medicine (new radiopharmaceuticals). Inclusive of the recommendations from the working groups.

Presentation of the Asia and Pacific Regional ALARA Network (ARAN)

Learn about the history, objectives and management of our Asian counterpart.
